After a tour of the Hillard Art Museum, we took a walk to Campus Grounds. During this time, we individually studied and generally just worked on a few assignments we needed to catch up on or notes we needed to study for an upcoming test.

The homecoming experience was really fun, meeting up was an hassle between the traffic and service. But everything else was perfect , we didn't win the football game so everyone left early but the experience was GREAT !!!! one i'll remember forever!!Getting out the house hanging with my classmates was something I truly enjoyed.

Volunteering at the Career Closet, I genuinely had such a nice experience. The staff were very helpful in telling me what I needed to do, and I even became friends with one of the girls I was volunteering with! The entire concept of the Campus Cupboard and Career Closet is a wonderful thing, and I am very proud that we have something so nice on our very own campus.

Volunteering at the campus closet was an overall great experience. Although the stuff I was doing
was good to know that I was helping in SOME way.

Even though I was most likely going to set up Handshake eventually, this project pushed me to set it up sooner rather than later so that I can start filling things in like work experience.
